Pennywise

SMART PERSONAL FINANCE • UI/UX CASE STUDY

THE IDEA	THE EXPERIENCE	THE FOCUS
Make everyday money tracking simple, visual and less overwhelming.	6 high-fidelity mobile screens + working prototype.	Clarity • speed • financial awareness • consistency

01 — PROBLEM

People make many digital transactions but can lose track of where money goes, how much budget remains, and which categories take the most.

Pennywise turns scattered numbers into a simple daily money companion.

02 — TARGET USERS

18–35
Students, fresh graduates and working professionals.

Digital payment users
People who prefer quick, simple and visual mobile experiences.

03 — UX GOALS

01 • FINANCIAL CLARITY	02 • LOW FRICTION	03 • VISUAL INSIGHT	04 • TRUST
See spending + remaining budget instantly.	Add an expense quickly with minimal steps.	Understand patterns through charts.	Keep the FinTech experience calm and consistent.

04 — USER FLOW

Welcome	→	Login	→	Dashboard	→	Add Expense	→	Analytics	→	Profile

The final Figma prototype follows this primary journey and also supports direct navigation between core sections.

From Flow to Interface

Key design decisions behind the six-screen Pennywise experience.

01	**WELCOME** Custom coin-inspired Pennywise identity, dark navy foundation, green growth cue, clear tagline and primary CTA.
02	**LOGIN** Focused authentication with clear fields, strong Sign in action, Google continuation, privacy reassurance and account creation.
03	**DASHBOARD** Monthly total, remaining budget and top categories are prioritized so the user understands money at a glance.
04	**ADD EXPENSE** The amount field leads the screen; categories are easy to scan; notes stay optional to keep entry fast.
05	**ANALYTICS** Spending trend, category breakdown, filters and an insight card turn raw transactions into understandable patterns.
06	**PROFILE** Personal details, budget, notifications, security, currency and sign-out are grouped into simple sections.

VISUAL LANGUAGE

COIN + GROWTH
Circular mark connects money, saving and upward progress.

NAVY + GREEN
Navy creates trust; green highlights money actions and progress.

SOFT CARDS
Rounded surfaces and generous spacing keep information approachable.

#0B132B	#20D167	#FFC857	#FF4B55	#F7FBF9
Trust	Money / action	Highlight	Alert	Surface

FINAL OUTCOME
A six-screen high-fidelity FinTech mobile experience designed around one idea: make money easier to understand. The completed Figma prototype connects the full primary journey from welcome → login → dashboard → expense entry → analytics → profile.
